Cape Agamemnon	Capesize Dry Cargo	179,221	2010	SUNG DONG

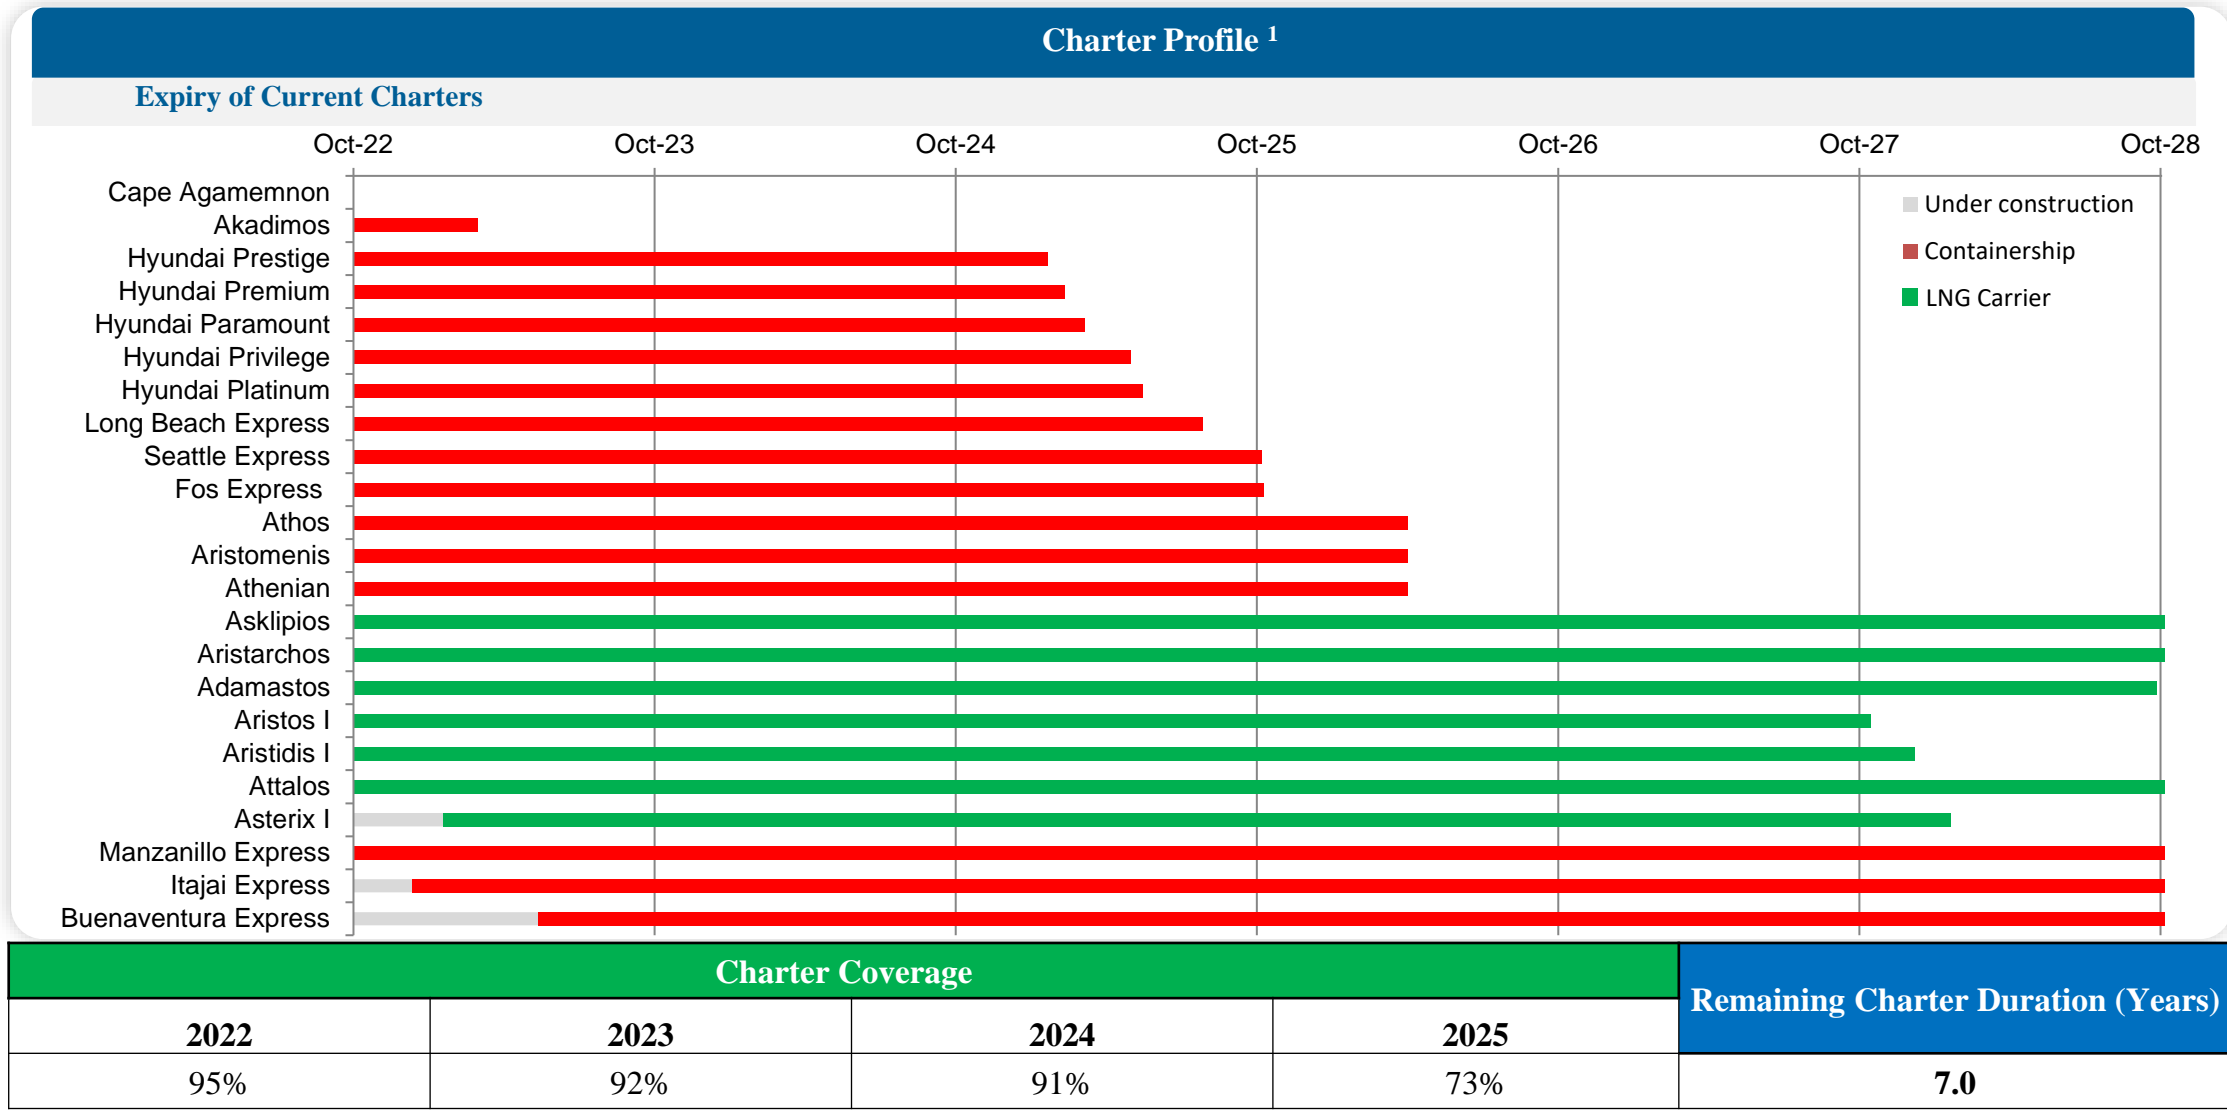

23 Vessels – 2.2 mm DWT – 1.2 mm CBM – 119.4k TEU

Fleet Age

¹ Industry Average Age data from Clarksons as of September 2022 weighted by DWT for the composition of the CPLP fleet.

Strong Charter Coverage & Duration

1. Including recently announced four vessel acquisitions. Assumes the exercise of the first two options (total 4 years per vessel) for the three vessels on charter to BP, as the structure of the time charter party makes the exercise of these options highly likely.
