

CAPITAL CLEAN ENERGY CARRIERS CORP. RECEIVES A “B” SCORE IN ITS FIRST CDP CLIMATE DISCLOSURE

ATHENS, Greece, Jan. 8, 2026 -- Capital Clean Energy Carriers Corp. (the “Company”, “CCEC”, “we” or “us”) (NASDAQ: CCEC), an international owner of ocean-going vessels, today announced that it has received a “**B**” score in its **first** CDP disclosure.

CDP is a global environmental disclosure system used by companies, capital markets and other stakeholders to assess and compare reported environmental information. A “B” score corresponds to the **Management** level in CDP’s scoring scale, reflecting reported practices and actions to manage climate-related impacts.

Jerry Kalogiratos, Chief Executive Officer of CCEC, commented: *“Our first-time CDP ‘B’ score is an important milestone for CCEC and a strong endorsement of the progress we have made in establishing governance, processes and disclosure around climate-related matters. As a gas-focused shipping company supporting the energy transition, we recognize that transparent reporting and disciplined management of climate-related risks and opportunities are increasingly important to our stakeholders. We view this first CDP score as both validation and a baseline as we continue to strengthen our data systems, enhance our reporting and further develop our approach to decarbonization and operational efficiency across our platform.”*

CCEC intends to continue building on this foundation through ongoing enhancements to its sustainability reporting, data quality and internal controls, and engagement with relevant stakeholders.

About Capital Clean Energy Carriers Corp.

Capital Clean Energy Carriers Corp. (NASDAQ: CCEC), an international shipping company, is one of the world’s leading platforms of gas carriage solutions with a focus on energy transition. CCEC’s in-the-water fleet includes 14 high specification vessels, including 12 latest generation LNG/Cs and two legacy Neo-Panamax container vessels, one of which has been agreed to be sold. In addition, CCEC’s under-construction fleet includes nine additional latest generation LNG/Cs, six dual-fuel medium gas carriers and four handy LCO₂/multi-gas carriers, to be delivered between the first quarter of 2026 and the first quarter of 2029.

Forward-Looking Statements

The statements in this press release that are not historical facts, including, among other things, statements related to CCEC's ability to pursue growth opportunities and CCEC's expectations or objectives regarding future vessel deliveries and charter rate expectations, are forward-looking statements (as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended). These forward-looking statements involve risks and uncertainties that could cause the stated or forecasted results to be materially different from those anticipated. For a discussion of factors that could materially affect the outcome of forward-looking statements and other risks and uncertainties, see "Risk Factors" in our annual report filed with the SEC on Form 20-F for the year ended December 31, 2024, filed on April 17, 2025. Unless required by law, CCEC expressly disclaims any obligation to update or revise any of these forward-looking statements, whether because of future events, new information, a change in its views or expectations, to conform them to actual results or otherwise. CCEC does not assume any responsibility for the accuracy and completeness of the forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements.
